The National Fast

In order that our readers may clearly understand the object of Congress in soliciting the President's Proclamation for a day of National humiliation, fasting and prayer, we deem it proper to publish the resolution which passed both Houses, relative to the matter Nearly every paper inimical to the Government has been pleased to pervert its meaning, seeming to experience a degree of pleasure commensurate with their effort to ridicule what every patriot and Christian will regard as to some extent sacred It will be perceived that the telegraph did not convey a very definite idea of the resolution when the news first reached us of its passage.

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be requested to appoint a day for humiliation and prayer, by the people of the United States, that no request his constitutional advisers at the head of the Executive Departments to unite with him as the Chief Magistrate of the Nation at Washington, and the members of Congress, and all magistrates, all civil, military and naval officers, all soldiers, sailors and marine, with all loyal and law abiding people to convene at their usual places of worship or wherever they may be, to confess and repent of their manifold sins, to implore the compassion and forgiveness of the Almighty that if consistent with His will, the present rebellion may be speedily suppressed and the supremacy of the Constitution and laws of the United States may be established over all the States; to implore Him as the Supreme Ruler, not to destroy us as a people, nor suffer us to be destroyed by the connivance or hostility of our nations or by obstinate adhesion to our own counsels which may be in conflict with His eternal purposes and to implore Him to enlighten the minds of the Nation to know and do His will, humbly believing that it is in accordance with His will that this appeal should be maintained as an united people among the family of nations, to implore Him graciously to arm defenders and the masses of the people with fortitude, courage, power of resistance and endurance necessary to secure that result, to implore His infinite goodness to soften the hearts and enlighten the minds and quicken the conscience of those in rebellion, that they may lay down their arms and speedily return to their allegiance to the United States, that they may not be utterly destroyed that the effusion of blood may be stayed and that harmony and fraternity may be restored and peace established throughout all our borders.

The late Call for Troops

A thorough enquiry has been made on this coast as to whether the draft will be enforced here in the event of a failure to secure the States' quota by volunteering Thus far we have been exempt from the draft on account of the distance and the enormous expense attending the transportation of troops from this coast to the scene of war. Another reason, of course, why the Pacific States have not been called upon to fill their quota, is the necessity of keeping a sufficient force to meet any emergency which might arise here growing out of the present war We think in this the Government has used discretion, as thereby we are better prepared to quell insurrection or repel invasion should either occur and can look to the Government at Washington with full confidence for aid to our assistance And it is very important that the Pacific slope should be preserved to the United States by continuing here such a population of fighting men as would make it a stronghold in case of foreign intervention

There are a goodly number of stalwart and loyal men on this coast who would willingly enter the military service if they were certain of being sent to the front to duty East But the time may come when duty will be active nearer home, and their patriotism and courage may be tested in defence of their firesides We presume that so long as the present condition of things exist here, there will be no draft upon our military strength, so long as Indians and lawless desperadoes can lay their depredations at the charge of Indians, and keep our Government troops hunting them in the mountains, it would not be safe for many of our able bodied men to seek employment at no far away, nor, from the lights at present before us, do we believe it would be the policy of the country to enforce a draft

Should the time come when the full quota for the war is required of the States on this coast, the minor interests here should be sunk in the importance of preserving the Government, and we doubt not that the call would meet a prompt and hearty response

IMPROVED MAIL ARRANGEMENTS —The DAILY OREGONIAN of the 22d inst congratulates the Sound people with the above heading, and informs us that through the attention of C M CARTER, Esq, the schedule time between Portland and Olympia has been so changed as will hereafter prevent interruption at Monticello We will certainly have cause to rejoice when such an arrangement goes into effect but no fear our neighbor of the OREGONIAN is a little premature in his congratulations, as we understand the change is not to be made until the first of September next Mr Winsor the contractor, has however gone to Portland to see if the Special Agent has authority and is willing that the new arrangement shall take effect immediately, if so we may expect through mails from and after Monday next

MR F MARION SARGENT, P M at this place, has furnished us with the following copy of the schedule of departures and arrivals of the mail on route No 12 771, on which Henry Winsor is the contractor," recently re-instated from the Second Assistant Postmaster General but no time is given when the service shall commence leaving it either to the Special Agent the contractor or to future instructions from the Department to arrange this matter

Leave Olympus Monday, Wednesday and Friday, at 7 A M arrive at Monticello next day by 12 M, leave Monticello Monday Wednesday and Friday, at 1 P M, arrive at Olympus next days by 7 P M Mode of conveyance, [illegible]

The cause of doubt as to when the above change is to be made, grows out of the fact that when the schedule was changed from a *tri* to a *tri weekly*, mail, the times of arrival and departure was left entirely at the option of the contractors thus it continue until the close of the contract. A new contract having been entered into by Mr Winsor to take effect on the first of September next it is thought there will be no change in the schedule unless by special agreement, until that time —*Pacific Tribune July 30th*.

We did not state that the schedule time had been changed through the attention of our lady Mr C M Carter informs us that he has not seen or heard from Mr Winsor He is both time given to Postmaster Sargent of Olympia the proper time and he did even send that to prevent nuisance If the new schedule grows out of the fact stated why was a new schedule received and promptly acted upon last winter—we mean the change which has created all the difficulty? A statement was made to us that on the very preceding the appearance of our congratulations the mail was taken as it should be and carried through without delay The following from the Washington correspondent of Sacramento Union will accurately confirm that statement

Complaint having been made to the Post Office Department that the mails from Portland Oregon for Olympia W T are badly kept at Monticello Postmaster General Dennison has issued an order has been issued remedying the delay

Instead of taking the mail from the Monticello office at 7 A M, and thus waiting for the passengers and express from the mail steamer until after the mail is ready they could take the latest mail through the people would be much better satisfied and the terms of the contracts better fulfilled It is not pay the mail contractor better to keep the mail behind while he runs in expectation of a new and subsequent contract the people have a right to demand other and more reliable facilities for obtaining their mails

Expedition into the Indian Country

The following report of Lieut Wasmer commanding a detachment of the Dalles Expedition gives some geographical information which will be of interest to our readers

FORT DALLES EXPEDITION TO INDIAN COUNTRY
CAMP No 8 July 8 1864

EDITOR OREGONIAN

In obedience to Order No 0 Headquarters Fort Dalles Expedition into Indian Country and in accordance with instructions received on heretofore read from Capt G B Currey 1st Oregon Cavalry commanding the detachment of cavalry under my command, comprising thirty enlisted men of D Company, 1st Oregon Cavalry was had from this place on the morning of the 6th inst Passing out of the eastern end of Summit Valley a plain situated near the sources of Silvies River or Cricket Creek and about sixty five miles north of Harney Lake, I passed over a succession of timbered hills gradually ascending towards the east a distance of four or five miles and then joining to several irregular chains of mountains, the most prominent of which lay to the north Taking this prominent ridge I found it to be the dividing range between Canyon Creek to the north and the east fork of Silvies River to the south The general course of the high divide is east north east and west south west, and it heads directly towards Malheur Butte, the highest point of the mountains at the head of John Day s River About three miles after striking the range our route intersected a large trail which comes out of the great defile of Canyon Creek and runs almost due south in the direction of Strom's Mountains east of Harneys Lake The guide an old trapper, who practically acquainted with the country, thinks that the trail was formerly used by the Indian tribes of the Umatilla and Walla Walla rivers, in coming to the mountains of this vicinity in search of game I may however be in error in this conjecture as I am ignorant of Shoshonean dialects, and could not therefore converse with the guide

On the evening of the 7th with some difficulty from the steepness of the ascent and the rocky nature of the mountain I moved up two miles to the top of the range There is a fine spring here, with some mountain grass surrounding it on the hillside The range here is quite rugged, its northern face forming a cove in the shape of a horseshoe of several miles in circumference. The walls of the cove are nearly perpendicular, are composed of basalt rock, are about one thousand feet in height, support several very large beds of snow and rest their base upon a large table land

On this table-land, thousands of feet above John Day's River, the brooks from the walls of the cove form a lake about one and a quarter mile long and a half mile wide The lake is bordered by rock, and a large grove of pine surrounds it A large stream issues from the lake and runs into John Day s River Malheur Butte occupies the northwest end of the cove, three miles distant from its centre Leaving the animals at the spring in charge of one platoon, with the other I went to the summit of the Butte The ascent was steep and rocky The Butte is composed of trap rock It commands a fine view of the country for more than a hundred miles around

The middle fork of John Day s river has its source in the mountains immediately connected with the Butte to the East a few miles Canyon Creek five miles to the S W, Silvies river or Cricket creek, (east fork) three miles S S W One fork of Malthow river heads directly east and runs east, and another tributary heads about five miles S E, runs south perhaps 15 miles when it is joined by a stream coming from the west and turns east All the intermediate country about those streams is mountainous and covered with fine timber except two small valleys on Silvies river, one on the tributary of Malheur, which runs south and the channel of John Day s river which is marked by a high rolling prairie of several miles in width bordered by timbered mountains The mountain on the north fork of John Day s river runs north on the head of Burnt and Powder rivers, to the north-east the Payette mountains, to the distant east Stein's mountain east of Harney Lake to the South, and the Cascade range far in the west, were all plainly visible Leaving the mountains passed down a gradual slope to the south into the small valley on the tributary of Malheur It is nearly round, about five miles in diameter has several groves of pine in it, is surrounded by timbered mountains and discharges its waters through a canyon to the South There is plenty of game in the valley, but no Indian sign of this year Encamped in the valley with plenty of grass, wood and water

On the morning of the 8th left the valley at its western side passing into the timbered mountains in a westerly direction for Camp No 38 The mountains are quite rough for about seven miles to the west. Several large canyons running south thence passing into the divide north of Silvies river the descent is gradual and comparatively free from fallen timber—the worst obstacle to manoeuvre in that direction Traveling west about 20 miles reached Camp No 38 at 2 o clock P M having this covered no fresh Indian sign during the day

I have the honor to be, Sir
Very respectfully your obd't serv't

LATER—Deserters say that just before starting Early drew rations for 10 000 men, and Breckinridge followed with another 10,000

Another report says there is no statement that they had been joined by Hill's corps for up to Thursday last his troops were in an intrenched position

CAIRO, Aug 2—On July 15th 200 guerrillas encountered a party of negro soldiers seven miles back from Wilson's Landing and repulsed them in a short time

On the next day some Federal cavalry were sent out from New Market which routed the rebels killing 10 and wounding a large number on both sides trifling

NEW YORK August 2—Gold opened at 257@ 259 closing at 262

FROM LUSTON AND BEAVER HEAD—Mr Day, of Vouchel W T who went with a pack train to Beaver Head last spring and has recently returned, furnishes the Walla Walla *Statesman* with the following interesting items

The steamers which left St Louis for Fort Benton in May met with no better success than the steamers did a year ago—not reaching getting near than 200 or 300 miles of Fort Benton The water in the Missouri this season as last, has been unusually low, owing to the light fall of snow in the mountains, yet the river men think that the boats will in usually high stages of the river during the summer season, be able to ascend the river to Fort Benton The boats used this season were not considered sufficiently powerful for the trade

When Mr D arrived at Beaver Head goods and supplies were commanding very high prices but a few days after his arrival, wagons and trains from Omaha and Atchison began to arrive, and prices speedily went down to reasonable figures

A very large emigration is on the road to Beaver Head when Mr. Day left not 1 trains were still coming in No less than a thousand wagons had already arrived Some of them tried to take the trip through to this country, but finding the Indian road impassible on account of fallen timber and the destruction of bridges they were compelled to turn back to Beaver Head and some of them left with their wagons for Boise to continue by that route

The miners who had claims were generally doing well but after the emigration arrived there was a large surplus of miners. The very profitable mining was mainly done in the gravels below the mountains some companies were making large wages digging into the hills

Since the wholesale slaughter of the Indians and murders by the Vigilance Committee last spring, that class of persons have very generally left the country and those who remain are keeping themselves very quiet

Congress has appropriated $400 000 for a branch mint at San Francisco and $1 000 000 for the erection of defensive works on the heights of that city

The appropriating $100,000 for a branch mint and assay office at the Dalles was crowded through Congress at the close of the session

Congress has passed a bill appropriating $10 000 for the purpose of erecting a light house at Cape Disappointment on the Southern shore of the entrance to the Columbia River

SEARCHING FOR ARMS.—The regulations to prevent piratical seizures of Ocean steamers, under the recent order of Gen McDowell, was inaugurated in this city yesterday, at Couch's wharf, previous to the departure of the steamship *Oregon*. The enforcement of the new regulation attracted a large concourse of citizens and others, curious about such matters, and in some instances afforded infinite amusement to the crowd. A large champagne basket was well nigh filled with pistols, revolvers and cutlasses, for which checks were given for the safe return. Some of these instruments were odd enough in their construction, and the date of their manufacture would appear to run back well into the dark ages, and they might be classed as having their origin in the days of the feudal system of tenures. One of this class was given up by a good natured mariner, with a strict injunction to the officer of the ship not to let it "go off, as it had been purposely loaded for a "Snake Injun, and might "kick up the—" very old scratch. As a general thing the passengers submitted to the process readily, and cheerfully, but occasionally one was to be found not willing to allow the search, and obstinately refused to go on board in consequence of it—but we guess they went as the subject could not be dodged. The Chinese and Mexican passengers, whose understanding could not well *make* the arrangement distinctly, occasioned much merriment, and the proceeding altogether was quite laughable.

FREIGHTS FOR THE UPPER COLUMBIA.—Notwithstanding the reports of a great abundance of goods in the upper Columbia country at the present time, the steamers from this city appear to carry large freights of merchandise in that direction daily. The returns in bullion do not seem to indicate much of a disposition for failures, and our deductions of the matter are, that the signs show on it a prosperity. Persons just from the mines are positive that most branches of business will be better next year in the Boise region than heretofore, as creek claims are nearly worked out, which will afford the hill claims good dumping ground, for the want of which they have been unable to work the present season. The quartz interests will also be better under the coming season, and long after the placer diggings have become extinct in certain localities precious metals will be taken in large quantities from unexplorable lodes already defined, which is sufficient warrant for the continued introduction of such large amounts of freight, to say nothing of the new discoveries likely to be made.

LOOK OUT FOR POWDER.—We believe there is a law or regulation—if there is not, there ought to be—which forbids keeping in one place within the city limits a large amount of gun powder. We are glad that this wise precaution is not always observed in the whole city is not unfrequently exposed to the peril of wholesale explosion, by carelessness in this matter. On Tuesday a large number of kegs of powder were up on the wharf at the steamboat landing, which should not have been there for any length of time. Whether they were put up in proper magazine we do not know, but we hope that our City Marshal and his Deputies will see that the consequences of such danger as much have to be guarded against at the earliest moment possible to have it in a secure place, where it cannot do mischief to the community. Prudence and caution in small matters save us from fearful calamities.

DISPATCHES AND LETTERS.—It was announced several days ago that the former *Pioneer* would be fitted up as a store ship for the voyage to Aquina Bay, to run in connection with the Corvallis wagon road, and with which it was taken to Milwaukie for the proper preparations. We have been looking for her return and final departure to Aquina, but were surprised yesterday with the intelligence that she had left without a parting item. In the stillness of the night she clandestinely slipped, and following the example of her big sister in this city to New York, the steamer *Jenny Woodly*, from the hands of law and escaped to sea. The *Pioneer* has been long with us, in fact is part and parcel of our history, and we hope her declining years may be as prosperously attended in her new career of usefulness, as were her early days on these waters.

TREASURE BY THE STEAMSHIP.—The steamship *Oregon* which sailed from this port yesterday at 11 o'clock A M, carried 140 passengers, and the following amounts of treasure according to the manifest which includes probably one half of the real sum shipped:

Wells Fargo & Co	$2,000 00
Adams & Co	20,000 00
Kellogg & Co	18,000 00
Pacific Mail Steamship Navigation Co	14,000 00
Knapp, Burrell & Co	9,300 00
Hibbard, Wilcox & Co	2,000 00
Simons	2,000 00
Unknown	1,000 00
Total	$321,000 00

OFFICERS OF THE O S N COMPANY.—Upon the resignation of Capt D F Bradford, as Vice President of the O S N Co, in consequence of his desire for the East, the board of directors met for the purpose of selecting an officer to fill the vacancy which Mr S G Reed received the appointment. A new incumbent is well known as among our long citizens, and in connection with Capt J C Ainsworth, President, and Geo L Murray, Esq., Secretary, the affairs of the Company will move on smoothly as they have done heretofore.

HARVESTING.—We understand that the farmers of the Willamette Valley are hard at work in one the most abundant grain harvests that has ever favored to Oregon. The crop is not only full, at the extent of ground over which it is grown is far greater than for any previous year. We are happy to chronicle these evidences of thrift among the agricultural portion of our population. California, British Columbia, the Sandwich Islands, and our own mining regions, stand ready to be availed of the benefits of a portion at least, of the present Oregon Harvest.

FAST DAY.—In accordance with the action of Congress, and the President's Proclamation, making this a day of fasting and prayer, we understand our merchants and business houses generally do not intend to transact the usual business. There will be divine service in the principal churches of the city, and the provisions of the proclamation will generally be conformed with. The usual session of the Common Council will be deferred until to morrow evening and there will be no paper issued from this office to morrow morning.

MORE STEAMERS FOR THE COLUMBIA RIVER TRADE.—A late number of the Victoria *Chronicle*, states that the new steamboat launched recently at Ucluluty, W T, would take on board the engines of the old English boat *Gov Douglas*, and the boiler of the *Col Moody*, of Victoria. The frame of the second steamer, which is to run above the Cascades, is completed, and will be placed on board the steamer just launched, and freighted hither, where it will be put together above the Cascades.

EXPLOSION.—Some portions of the machinery gave way yesterday afternoon at the Monnastes Iron Foundry, on First street which disconnected a main pipe of the steam boiler, immediately filling the building with steam and smoke. The noise attracted a large crowd of excited persons, and the agitation was immense for a short time, many supposing that the boiler had exploded. The damage was slight.

OVER DUE.—The steamer *John H Couch*, Capt Holman, was due from Astoria on Tuesday evening, but had not made her appearance up to the hour of our going to press last night. The probabilities are that the delay is occasioned on account of the bark *Almatia*, as it frequently happens that the steamer waits for sailing crafts at Astoria until just sufficient time to make return connections from Portland.

HOME TICKET.—We have been shown a very rich specimen of silver quartz rock, forwarded from the *Home Ticket* lode in Owyhee to Guy Gibbs of this city, by A C Swift, Esq. Very small amounts of such rock will be necessary to furnish "home tickets" for sojourners in the mountains, and fix the holders very comfortably in temporal life upon their arrival at home.

FIRE ALARM.—The Fire Department turned out in quick order last evening in response to a general alarm, occasioned by burning brush in the vicinity of Wall street.

PROPER EXPORTS.—The freight of the steamer yesterday consisted of about 500 tons, in part of 6,000 sacks of flour, 150 bales wool 1,000 sacks of wheat, and oats. A large quantity of Oregon bullion was taken on the cargo book for Victoria.

PERSONAL.—Major Frank T Rice arrived over, with the steamship *Oregon* yesterday, on a tour to the different Military Posts on Puget Sound, for the purpose of paying the troops stationed there.

EXCLUSION ON THE SOUND.—We understand that the prohibitory order issued by Dr Gunn against steam traffic being carried on by British steamers in Puget Sound under the U S Steamboat Act of 1838, had already been put in practical operation, and the *Alexander* was fined $400 on her last trip for infringing the regulation. The money we learn was paid under protest and a telegram has been sent to Washington for instructions. The Act in question states that no ship propelled wholly or in part by steam shall be allowed to navigate Lakes, rivers, or other navigable waters of the United States without first having obtained a license and otherwise conformed to the provisions of the Act.—*Collected.*

The *Alexander* still visits the Sound at we may judge from the advertisements in the British papers.

OIL MINE.—We have been informed that Joseph Watt contemplates the erection of an oil mill on Mill creek, in the eastern part of Salem, this season. Flax seed will then be in demand, and if the enterprise receives proper attention and support, the community may be greatly benefitted by it. A large amount of money that goes out of our State every year for paint oil is by no means inconsiderable, and every enterprise that will tend to the development of our own resources should receive support and encouragement.—*Statesman.*

ON ALL SIDES we hear the merits of the Grover & Baker Sewing Machine extolled. The ladies declare it the "very best," and prove it to us in so many undeniable facts that we are bound to confess our conviction of the truth of the declaration. What other machine will ornamenter so beautifully, braid so elegantly, hem so faultlessly, quilt so evenly, stitch so accurately, gather so regularly, operate so easily? *Note*, we conscientiously affirm.

Buy one of Pierson, and you can satisfy yourself as to the fact.

Oregonians should test the merits of Dr HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to Health.—Sold by Druggists and dealers generally. jy26daw

Loss of Constitutional Vigor.—After a life of anxiety and unusual pleasure comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs and general inability. If anything can rekindle the nearly extinguished fire, and bring back the system to vigorous health it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage, that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. *"Hewan's Bronchial Troches* give sure and almost immediate relief. *Military Officers and Soldiers should keep them, as they can be carried in the pocket and taken on occasion requires.]*

WHY C L WALLIGHAM WAS ARRESTED.—Of course many of the copperhead papers are complaining, still in tolerance of our Administration in arresting Wallicham. We publish below the synopsis of a speech delivered by him for which he was arrested by Brig Gen Burnside, as taken down by a reporter of the Cincinnati *American Flag*. It will be seen that although a sufficient number of base falsehoods and insinuations to taint the basest mind, Mr Vallandigham was very careful not to utter words that would render him liable to arrest for treason. He assures his hearers that he would do so, but still he has managed to serve his master.

Fellow Democrats—I am glad to meet you here to night. I am glad that I was able to attend this meeting. I will be called that much longer a Democrat—but I hope for the last time. I will not detain you long. There are not many things of interest that I can say to you to-night. Most topics are worn out. The subject of this war is worn out. I cannot say much about it and yet I shall refer to it. In view of the recent proclamation of Abe Lincoln for five hundred thousand more men the matter of the draft has become of supreme importance to us. (A yell.) We all remember how the Union masses of the North and the Union leagues took up the chorus—

"Wore coming Father Abraham, three hundred thousand more."

But will that be the echo of the present draft? Will it have any response from men who are liable to the draft? (Yells of No! no!) Will the Union Leagues respond to it? Not one of them ever enlisted. They are home guards! (Yells and stamping.) He then proceeded to calculate the number of men who had been enlisted in the service of the Government, and figured up over two millions.

Now we are especially we who are liable to this last draft want to know where the men have all gone to. We ask the Administration where those two millions of men are. They will not tell us. The Government keeps its secrets well—particularly as regards the disposition of their forces in the field. We must look elsewhere. I have a paragraph from a letter of J. W. S. to the *Bulletin*—that means a letter from J. W. Simonton who has told a heap of his lies. He here reads a statement of that writer relative to a Ohio regiment returned from the war badly cut up. That is the manner in which our people are being enlisted; that is where the two millions and more have gone—they have gone to their graves. (Cries of "No! no!") Where are the rebel yells and stamping? The Government can spare two millions of men as easily as the south can spare one million; and thus they intend to do. They will give two millions to one. They trust in that way to exterminate the fighting men of the South. They have disparaged of every conquering hero in the south by four means; they have disparaged of capturing Richmond (cheers) and now they calculate to overwhelm and kill off the people of the south and divide their property among the North. (Hisses and groans.) You boys are now what are you *Democrats* to do?

Have you heard the groans of your brothers, sons and children over the graves of their beloved relatives—that horrible unfraternal war—two millions of men already, and yet a draft for five hundred thousand additional troops. I am talking now to men—Democrats—who are liable to the draft. I shall not advise you to oppose it; I will not that would be, but I will say this, when it comes. Irishmen volunteer! That is volunteer! Look upon your little ones, your children—gaze upon your darling wives, contemplate the pleasures of home, and then volunteer! (Numerous voices, 'Never never!') If we are not satisfied that the Administration is waging a wicked war for the destruction of the Union, would do so. [Cries of 'You bet.'] But I object to the basis of this war now to be made for the Union! [Cheers and yells.] Democrats! I am told you will be allowed to go to the polls at the next election in November. [Cries of we must see it will be.] I don't believe it. But we must defend our liberties and I counsel an ARMED FORCE for that end. I would not advise unnecessary violence until we have now come for Democrats to do that, you must arise. As the Secessionists organizations—Union League and other mischievous armed by the Government. We must take arms ourselves. Vallandigham then in a speech which he made a few days ago to a great part of the Democratic party in the West, have formed a secret society and are ready to defend their liberties. Do I counsel to do the same thing here in California and I ought the members of that party are opposed to secret societies of any kind, but must organize to RESIST THE IRON ARM OF MILITARY TYRANNY IN CALIFORNIA! [Cheers and voices, 'We will.'] None of us are safe. You do not know what we may not before to-morrow night be in the hands of the prison of Alcatraz. It is done every week. Why only yesterday a man and a woman and child were, a woman of God, while officiating as pastor at a camp meeting in Calaveras county—was arrested and in all probability is now under guard in a military prison. He came from the East but I cannot for the purpose of laboring in the Methodist church. His name is Bishop Kavanaugh. He was unarrested and without a single word of explanation quietly ly and see such things [Cries of *we* have been. [Cries of No! No!] What is the reason? Democrats know that Democrats never will not allow them to build their heads until the tyrants will no longer they will say, We do not want to fight. Just as soon as it is known that one THOUSAND Democrats in California will and you will see such peace and quiet reign as [illegible] when Vallandigham told the people of the secret doings of the Western Democracy such a land not been known for many years.

He then read a quantity of disgusting matter from the pretended Bible prayer book, and guide to Baptism, and other authorities, thanked the traitors for their kind attention and sat down. The meeting then adjourned.

[illegible] SUFFRAGE.—The Victoria [illegible] opposes the universal suffrage and [illegible] striking antediluvian doctrines, [illegible] which are disquieting in the new [illegible] uniting many of its former adherents [illegible] notions even on liberty, save to [illegible] or. The nation which in its enthusiasm [illegible] precautions, restrictions which were [illegible] are still retained in a relaxed form [illegible] country, is now broken into fragments. The United States, which once seemed to [illegible] promise of a glorious future here, to [illegible] seem ornarily covered into discordant [illegible] ing sovereignties. The land which boasts [illegible] freedom of all its subjects is rent with [illegible] and drenched with fraternal blood and [illegible] to restore the Union, even the broad [illegible] will to franchise has not been able to preserve [illegible] or of the subject in its former lustre. And [illegible] the time when men come forward on abstract ground and not to meet the importunate demand of any class, to ask England and her colonies to repeat an experiment which has partially if not entirely failed in other places.

POLITICS OF SOME OF THE IMMIGRANTS.—A Virginia City correspondent of a San Jose paper gives an inkling of the politics of the immigrants. He says:

I went down the other day to see a company from southern Illinois—Egypt. We soon struck up an acquaintance with them, and in conversation on different topics we got along swimmingly. At last one of my companions accidentally asked them their politics. His question was followed by a dead silence which was broken after some time by a big fellow in a complete suit of butternut clothing, who exclaimed, "Well, stranger I am for Fremont I am." And I and I chimed in the rest. Tooze fellows were not to be caught. They wanted to be on the safe side. Most of them confessed that they had fear of the draft and had sought safety on the broad Pacific coast while others declared that they had come out for the purpose of speculation—an assertion which their seedy looks belied.

GREENBACKS ADVANCING.—Uncle Sam's much abused currency is gradually extending itself towards this impoverished community. We learn by a gentleman just arrived the plains across, that they pass current all the way on the overland route to within 30 miles of Austin. The attempt of the money shavers at Salt Lake to keep them out of the city of the Saints has been defeated by the intelligence of the otherwise stupid Mormons.—*Herald*.

THE NAME OF THE NEW STATE.—The Enabling Act provides the name of the State and authorizes its admission into the Union by Presidential Proclamation on the conditions mentioned therein. The Constitutional Convention very properly we think decided that they had no legal right to change the name. Westmoria preferable name to Nevada, but Congress granted the President no power to admit such a State by Proclamation.—*Enterprise*.

The potato rot exists to an alarming extent amongst the crops in Santa Cruz county, California. The 'peach blows' and red potatoes suffer to an alarming extent.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry as it fits impossible to overestimate the influence as a remedial agent. Iodine has been tried and proved the most valuable in Material Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Boerhaave's Assistant, Dr Lemery of New York after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent. This discovery has been pronounced by the medical world to be one of the most valuable of modern times. Dr Lemery has been appointed Professor of Chemistry in the Philadelphia College of Pharmacy, and Prof Booth U. S. Assayer in Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and the profession recommended to prescribe it. Physicians have found all the beneficial results claimed for Iodine without the unpleasant effects of the Iodide of Potassium, and it is now prescribed by the most eminent physicians throughout the country.

This valuable medicine is now available to the public in the form of Iodine Water in all its unadulterated purity. Consumption, Cancer, Heart Disease, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dropsies, Bronchitis, etc.

AS A TONIC

its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color, hitherto pale, relaxed and feeble, becomes full, strong and florid.

Full directions accompany each bottle.

HOSTETTER'S

CELEBRATED

STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE REMEDY upon the stomach, liver and excretory organs is singularly wonderful and complete. It regulates the secretions and purifies them. Dyspepsia in all its forms yields to the control of this invigorating preparation.

Invigorate the System.

Vigorous digestion and pure chyle or rich nutritious blood and nutrition bless a healthy frame. Does the victim of a dyspeptic stomach or disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed fibre, muscle and fibre and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken-down, frame and shattered constitution, which has yet been invented or discovered is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, nobility and mental they are a positive specific.

A word to the Aged.

In the decline of life the loss of vital force is frequent; a judicious and timely cordial only be safely and [illegible] vivifying operation which restores the strength and spirits without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As a safe, mild and assimilative intermediate it will be found all that can be desired, and permanent in its effects. It tones the stomach, improves its appetite, and acts like magic upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and decline, to which the sex they are subject. It will arouse and enlighten the depressed mental powers as well as strengthen the body, and its use is never followed by any reaction.

Is a Stimulating Oily Extract of Barks and Herbs.

It will cure all diseases of the scalp and itching of the head.

Entirely eradicates the dandruff.

Prevents the hair from falling out or from turning prematurely gray, causing it to grow thick and long. It is entirely different from all others, resembling it in name and color only.

Dissolution Notice.

THE COPARTNERSHIP heretofore existing between Rosenbaum & Cohn of Idaho City, I T and between Rosenbaum & Cohn of the Dalles Oregon is this day dissolved by mutual consent. L M Cohn and S H Bohm are authorized to collect and receive all debts and dues owing, and will be to the above firms respectively, and will discharge the liabilities of these firms. The business of the late firms will be carried on by the undersigned at the old stands.

From the battle-field—the mansion of the rich and the hovel of the poor—from the office and the counter desk—from the mountain top, distant valleys and far off isles of the sea—from every nook and corner of the world comes pouring in the evidence of the astonishing, effects of DRAKE'S PLANTATION BITTERS. The following may be seen at the office from the following may be seen at the office

Brandon, Wis Sept 26 1864

I was in the army hospitals for fourteen months—[illegible] Plantation Bitters they cured me. Three bottles set me on my feet. As an appetizer they are unequaled.

C A FOLEY

NEAR WARSAW, Ky July 28 1864

Only a few months ago I was not able to walk out of the house. Two years with scrofula and fever sore upon my limbs. Have used seven bottles of Plantation Bitters and they have restored me to perfect health.

EDWARD WOLSALL

The following is from the manager of the Union Home School for the Children of Volunteers

HARTFORD, CONN, FIRST STATE STREET

Nov 7 1864

Dr. Drake's New Orleans Plantation Bitters have given perfect satisfaction with the children suffering from worms. I have used them with success myself. One little girl, three years old, who had been ill for a long time with fever, was entirely cured by the use of three bottles of your Bitters. I consider them a valuable medicine, and have no hesitation in recommending them to the public.

MISS O M DAVIS

Matron

I have used Drake's Plantation Bitters in my family and believe them to be all that is claimed for them.

REV WM WAGGONER, Methodist Minister

We have used Drake's Plantation Bitters in our family and find them to be all that is claimed for them.

Rev [illegible] Philadelphia, Pa

I have been afflicted with severe dyspepsia, and by the use of three bottles of Drake's Plantation Bitters I am entirely cured. The Plantation Bitters are a valuable remedy for dyspepsia.

REV J E CARRUTHERS, Rector St N Y

I have used two bottles of your Plantation Bitters, the popularity of which are daily increasing, with the greatest success.

WM B SANDERS
Superintendent Soldiers Home Cincinnati, O

The Plantation Bitters have cured me of liver complaint, which I was in long standing, and from which I found no relief elsewhere.

H H RINGSLEY, Cleveland O

The Plantation Bitters have cured me of a deranged state of the kidneys and urinary organs that has distressed me for years. It acts like a charm.

C C MOORE, 4 Broadway N Y

The Plantation Bitters make the weak strong, the languid brilliant, and nervous exhausted nature a great deal more. They are a complete cure for the celebrated Calliman's Dark Winter Cough, Consumption, Bronchitis, Asthma, &c., all preserved in perfectly pure St Croix rum.

S. T.—1860—X.

There are so many ordinary bitters troubled with weakness, inquisitive gratification of the heart, lack of appetite, distress after eating, torpid liver constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities and are warranted to produce an immediate beneficial effect. They are exceedingly safe, absolutely perfectly pure and harmless.

Notice.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation bitters. Always see that every bottle has our private United States Stamp over the cork unmutilated and the signature on steel plate side label. Sold by respectable dealers throughout the habitable globe.
